The diagram illustrates two keyboard shortcuts for interacting with molecules in a software interface. It features two blue-outlined rectangular boxes, each containing the text "Select Molecule(s)".

- Top Shortcut:** An arrow points from the first box to the text "Reaction Shortcut". Above the arrow is the keyboard combination "Ctrl + [Left Arrow] [Up Arrow] [Down Arrow] [Right Arrow]".
- Bottom Shortcut:** An arrow points from the second box to the text "Rotation Shortcut". Above the arrow is the keyboard combination "Alt + [Left Arrow] [Up Arrow] [Down Arrow] [Right Arrow]".

Molecule to Hotspot **Hotspot to Molecule**
